

# **Uralla Community Garden Objectives**

- To provide education through demonstration as to how to create a loving eco-system.
- To provide an environment and organization which strives to have the focus and principals based on Love (Logic, Ethic's and Morals)
- To demonstrate that the systems that were created within nature are already perfect.
- To provide a surplus of organically grown fruits and vegetables for the community, especially the underprivileged, elderly etc.
- To provide areas for children that help increase the awareness of the interconnectivity of the environment and their own wellbeing.
- To provide a project that will be seen as a benchmark for future community garden developments etc.
- To be a cornerstone within the community for future projects.
- To uphold the laws of love in human interaction.
